

VISP

INDEPENDENT SERVICE PROVIDER PLATFORM AGREEMENT

Ontario, Canada | Final Legal Draft Version 1.3 | September 3, 2026

FINAL LEGAL DRAFT - COUNSEL REVIEW REQUIRED

This final legal draft is prepared for review and is not legal advice. It must be reviewed and approved by qualified Ontario counsel before production use or acceptance by Service Providers.

PARTIES

DROZ TECHNOLOGIES INC., operating as VISP
("VISP")

and

The individual or business registering for a Service Provider account
("Service Provider")

Effective when accepted electronically through the VISP platform.

1. Agreement, Acceptance and Incorporated Rules

This Independent Service Provider Platform Agreement (the "Agreement") governs the Service Provider's access to and use of the VISP technology marketplace, including the ability to view, quote on, apply for, accept, perform and receive payment for service bookings made available through VISP.

By creating or activating a Service Provider account, clicking an acceptance button, submitting an offer, applying for a booking after being presented with this Agreement, or otherwise using VISP as a Service Provider after acceptance, the Service Provider agrees to be bound by this Agreement and the applicable VISP Service Rules, job-specific rules, approved booking scope, payment terms, safety rules and policies made available through the platform.

If there is a direct conflict between this Agreement and a job-specific rule expressly identified by VISP as controlling for a particular service, the job-specific rule controls only for that booking and only to the extent of the conflict.

2. VISP Is an Intermediary Marketplace - No Employment Relationship

VISP operates a technology marketplace that facilitates introductions and transactions between customers seeking services (each a "Customer") and independent service providers who choose to offer services through the platform. VISP does not itself perform the services offered by Service Providers.

The Service Provider uses VISP independently and is not an employee of VISP. Nothing in this Agreement creates an employment, worker, agency, partnership, joint venture, franchise, fiduciary or similar relationship between VISP and the Service Provider, except to the limited extent expressly required for VISP to facilitate platform functions and payments.

- VISP does not guarantee any minimum number of bookings, hours, earnings, customers or future opportunities.
- VISP does not require the Service Provider to remain available at any particular time or on any particular day.
- The Service Provider may provide services to other customers, businesses or platforms, subject only to lawful obligations the Service Provider independently accepts.
- The Service Provider is responsible for their own business decisions, taxes, expenses, legal compliance and service performance, except where this Agreement expressly states otherwise.

3. Customer-Service Provider Contract

When a Customer accepts a Service Provider's offer, or when a Service Provider applies for and is selected for a Customer-posted opportunity, the resulting service arrangement is directly between the Customer and the Service Provider for the approved booking.

VISP facilitates the marketplace interaction, records the approved scope, provides platform functions, processes payments through a third-party payment processor, applies the applicable VISP platform commission and may administer platform disputes. VISP is not the party performing the underlying service.

4. Voluntary Participation, No Assignment and No Guaranteed Work

The Service Provider is never required by VISP to apply for, quote on or accept any booking. The Service Provider may choose not to participate in any opportunity without owing VISP any obligation for declining it, subject to any separate obligations arising after the Service Provider has voluntarily accepted a confirmed booking.

VISP does not assign Service Providers to Customers. Where a Customer posts an opportunity, including General Labour - Contractor Support, eligible Service Providers may voluntarily apply and the Customer independently chooses whether to accept or reject an applicant.

5. Approved Booking Scope

Every booking is limited to the exact scope approved through VISP, including the applicable service description, Customer answers, uploaded information, agreed price or rate, quantities, duration where applicable, material terms and approved changes.

EXACT SCOPE RULE

For the protection of both parties, the Service Provider must follow the exact approved job scope; any work outside this scope is strictly prohibited unless formally added and accepted through VISP.

A Customer's verbal request at the job site does not, by itself, expand the approved VISP scope. Where VISP provides a scope-change function, the change must be recorded and accepted through the platform before the Service Provider performs the additional work.

6. Regulated, Licensed and Credentialed Work

The Service Provider must not offer, accept or perform work that legally requires a licence, certification, registration, professional designation, trade authorization, permit, clearance or other regulatory approval unless the Service Provider possesses all legally required authorization and is approved by VISP for that specific service where VISP requires such approval.

Access to one VISP level, classification or service does not authorize the Service Provider to perform another regulated or restricted service. The Service Provider must keep all credentials and authorizations submitted to VISP accurate, current and complete.

7. SERVICE PROVIDER RESPONSIBILITY FOR SAFE AND LAWFUL PERFORMANCE**CRITICAL PROVIDER RESPONSIBILITY**

The Service Provider is responsible for determining whether they are capable, competent, properly qualified, legally permitted and appropriately equipped to perform each booking they voluntarily accept. The Service Provider is responsible for performing the approved work safely, competently and in accordance with applicable law.

- The Service Provider controls the manner in which the accepted service is performed, subject to the approved scope, applicable law, safety requirements and job-specific rules.
- The Service Provider must use reasonable care and must not undertake work they are not competent, qualified or legally permitted to perform.
- The Service Provider must use appropriate tools, equipment and personal protective equipment (PPE) where required for safe performance, subject to Section 11 where the approved booking permits Customer-supplied tools or equipment.
- The Service Provider must comply with applicable laws, site rules and legally required safety obligations.
- The Service Provider must immediately stop or refuse work that is prohibited under Section 14.

8. General Labour - Contractor Support

General Labour - Contractor Support is a VISP service for safe, non-regulated general labour assistance to contractors, businesses and job-site professionals. A Customer/contractor posts the hourly rate, expected duration and approved general scope within VISP's permitted limits. Eligible Service Providers independently choose whether to apply. VISP does not assign a Service Provider to the booking.

General Labour may include job-site cleanup, garbage and debris removal, loading and unloading, carrying and organizing materials or tools, moving supplies, grass cutting and basic grounds maintenance, basic assembly, production or assembly-line assistance, light non-structural demolition, site preparation and comparable non-regulated support tasks identified in the approved booking.

General Labour does not permit the Service Provider to perform electrical work, plumbing, gas work, regulated HVAC work, structural demolition, hazardous-material work, or any other work requiring a licence, regulated trade qualification, professional designation or governing-body authorization unless separately booked through an appropriate VISP service and lawfully performed by a properly authorized provider.

The Service Provider may use Customer/contractor-supplied tools or equipment where the approved booking permits it, but the Service Provider must not use equipment they are not legally permitted, competent or comfortable to use.

9. Platform Commission, Payment Processing and Payouts

VISP facilitates Customer payments through its designated third-party payment processor, currently Stripe. The Service Provider authorizes VISP and its payment processor to process booking payments, deduct the applicable VISP platform commission, administer authorized refunds or adjustments, and release the remaining payout to the Service Provider according to the applicable platform payment rules.

VISP Provider Level	Platform Commission	Provider Share Before Other Authorized Adjustments
L0	17.5%	82.5%
L1	17.5%	82.5%
L2	15%	85%
L3	10%	90%

The VISP commission is calculated on the approved service subtotal for the booking unless a job-specific pricing rule expressly states otherwise. The applicable commission may be displayed before the Service Provider submits an offer, applies for or accepts a booking.

Illustrative example: if an L0 or L1 Service Provider completes a booking with a \$200.00 service subtotal, VISP's 17.5% commission is \$35.00 and the Service Provider's payout is \$165.00 before any other authorized adjustment.

Payment-processing fees charged in connection with the Customer transaction are, under VISP's current model, added to the Customer's transaction total and are not deducted from the Service Provider's payout, unless VISP clearly discloses a different treatment for a particular transaction before acceptance. Processor pricing may change and is disclosed through the applicable checkout or payment flow.

Payouts may be delayed, adjusted or temporarily held where reasonably necessary to address a payment failure, refund, chargeback, suspected fraud, platform dispute, safety investigation, inaccurate time record or other issue permitted by this Agreement or required by law.

10. Taxes, Registrations and Other Legal Obligations

The Service Provider is responsible for determining and fulfilling their own income tax, GST/HST, business registration, licensing, WSIB registration or clearance, insurance and other legal obligations arising from their independent activities, except to the extent VISP is legally required to collect, remit, report or withhold an amount.

The Service Provider must provide accurate tax and identity information reasonably required by VISP or its payment processor to administer payments or comply with law.

11. Tools, Equipment, PPE and Materials

Tool, equipment, PPE and material responsibility is service-specific. The matrix below governs VISP's current live service catalogue, including General Labour — Contractor Support, unless the approved Booking expressly states a permitted alternative. The Service Provider must review the applicable supply rule before voluntarily applying for, quoting on, or accepting a Booking.

PPE baseline: unless the applicable service row or Booking expressly provides otherwise, the Service Provider supplies the ordinary personal protective equipment reasonably required for the services they choose to

perform. A Service Provider is never required to use Customer-supplied tools, equipment or PPE that are unsafe, unsuitable, unlawful, undisclosed, or outside the approved Booking requirements.

Current Live VISP Service(s)	Tools / Equipment / PPE	Materials / Customer-Supplied Items / Special Rule
Standard cleaning services: Window Cleaning (Interior); Move-Out Cleaning; Garage Cleanup & Organization; Oven & Stovetop Cleaning; Refrigerator Deep Cleaning; Carpet Vacuuming and Spot Treatment; Kitchen Deep Cleaning; Bathroom Deep Cleaning; Post-Construction Cleaning (light)	Service Provider supplies ordinary cleaning tools/equipment, reusable cleaning gear, ordinary PPE and standard cleaning products reasonably required for the approved scope.	Customer supplies any specific cleaning product the Customer requires to be used, but only if disclosed before acceptance. Customer provides normal access to water/electricity where reasonably required.
Carpet Steam Cleaning	Service Provider supplies the steam/extraction machine, hoses, ordinary PPE and normal cleaning solutions required for the approved service.	Customer provides reasonable access to water and electricity and must disclose any required specialty product before acceptance.
Furniture / equipment assembly: IKEA Furniture Assembly; Bookshelf Assembly; Bed Frame Assembly; Desk Assembly; Outdoor Furniture Assembly; Exercise Equipment Assembly	Service Provider supplies ordinary hand/power tools and ordinary PPE required for assembly.	Customer supplies the item being assembled and the manufacturer-provided hardware, parts and components.
Customer-supplied installation / replacement items: TV Wall Mounting - No wiring; Closet Organizer Assembly; Blinds and Curtain Rod Installation; Garage Shelving Installation; Kitchen Cabinet Installation; Door Adjustment & Hardware Installation; Interior Door Installation; Baseboard & Crown Moulding Installation; Babyproofing Installation; Weatherstripping and Caulking; Fence Board Replacement; Exterior Door Replacement; Window Replacement (Ground Level); Garage Door Replacement	Service Provider supplies ordinary installation tools/equipment and ordinary PPE required for the approved scope.	Customer supplies the permanent item/product being installed or replaced and its required manufacturer hardware/materials unless the accepted Booking expressly includes Provider procurement or supply of identified items.
Basic yard maintenance / pressure washing: Leaf Raking and Yard Cleanup; Hedge Trimming; Watering Plants & Gardens; Pressure Washing — Driveway & Patio; Pressure Washing — General Ground-Level Surfaces; Lawn Mowing; Garden Weeding	Service Provider supplies ordinary reusable yard tools/equipment and ordinary PPE. For pressure washing, Provider supplies the pressure washer unless the Booking expressly states otherwise.	Customer provides reasonable access to water/electricity where needed. Customer-supplied hose/watering equipment may be used when disclosed and suitable.
Gardening / ground-material installation: Mulching; Flower Bed Planting; Sod Laying; Garden Bed Edging & Border Installation; Small Paver Patio Installation; Sprinkler Head Replacement; Asphalt Driveway Paving; French Drain Installation	Service Provider supplies ordinary reusable tools/equipment and ordinary PPE required for the approved installation.	Permanent materials (including mulch, plants, sod, edging/border, pavers, sprinkler components, asphalt, aggregate, pipe, fabric or similar job materials) are supplied by the Customer or procured by the Service Provider only when expressly included in the accepted Booking or applicable VISP material-purchase workflow.
Tree work: Tree Pruning (Small Trees); Large Tree Removal	Service Provider supplies all tools/equipment and PPE they require and are legally permitted/competent to use for the approved tree-work scope.	No permanent Customer material is ordinarily required. Any hauling/disposal requirement must be included in the approved Booking.
Irrigation System Installation	Service Provider supplies installation tools/equipment and ordinary/service-specific PPE required for the approved scope.	Permanent irrigation components and installation materials are supplied by the Customer or procured by the Service Provider only when included in the accepted Booking.
Retaining Wall Construction	Service Provider supplies construction tools/equipment and PPE required for the approved scope.	Permanent wall, base, drainage and backfill materials are supplied by the Customer or procured by the Service Provider when included in the accepted Booking.
Moving / handling without vehicle transport: Furniture Rearrangement; Small Item Moving - Same Building; Storage Unit Organization; Heavy Furniture Moving (Stairs)	Service Provider supplies any ordinary moving aids/equipment and PPE they represented as available or that the Booking states they must bring.	Customer may supply dollies, straps or similar moving aids only when disclosed and suitable. Customer supplies access to the property/items being moved.
Moving / hauling with transportation: Donation Drop off; Junk Removal -light; Local Apartment Move- Studio/1 bedroom; Hot Tub Moving — Transportation Only	Where transportation is part of the approved service, Service Provider supplies a lawful, suitable vehicle insured for the intended use and any moving aids/equipment/PPE required by the Booking, unless the Booking expressly identifies a permitted Customer-supplied vehicle arrangement.	Customer supplies the items to be transported and accurate pickup/drop-off/access information. Any disposal, donation or destination fees must be handled as stated in the accepted Booking.
Snow clearing: Driveway Snow Shoveling; Snow Blower Services; Roof Snow Removal	Service Provider supplies the required snow-clearing tools/equipment and PPE. Snow Blower Services requires Provider-supplied snow blower unless the Booking expressly states a permitted alternative. Roof Snow Removal requires appropriate access/safety equipment for the accepted scope.	No permanent Customer material is ordinarily required. Customer must disclose unusual access or site conditions before acceptance.

Current Live VISP Service(s)	Tools / Equipment / PPE	Materials / Customer-Supplied Items / Special Rule
Sidewalk De-Icing	Service Provider supplies ordinary application tools/equipment and PPE.	De-icing material is supplied by the Customer or supplied/procured by the Service Provider only if expressly included in the accepted Booking.
Ground-level seasonal decorations: Holiday Decoration Installation (Ground Level); Holiday Decoration Removal	Service Provider supplies ordinary hand tools and PPE needed for approved ground-level installation/removal.	Customer supplies the decorations and customer-owned mounting hardware/products identified in the Booking.
Holiday Light Installation — Roofline	Service Provider supplies lawful access equipment, installation tools and required fall/safety PPE for the approved roofline scope.	Customer supplies the seasonal lights and customer-owned components identified in the Booking unless Provider-supplied temporary clips/components are expressly included in the accepted quote.
Patio Furniture Seasonal Storage Prep	Service Provider supplies ordinary hand tools and PPE required for basic cleaning/disassembly/preparation.	Customer supplies furniture covers, storage containers and other customer-selected storage materials unless the accepted Booking says otherwise.
Window Screen Installation	Service Provider supplies ordinary installation tools and PPE.	Customer supplies the compatible window screen(s) and customer-owned hardware/components unless separately quoted.
Attic / exterior / soffit material work: Attic Insulation Upgrade; Exterior Waterproofing; Soffit & Fascia Replacement	Service Provider supplies the tools/equipment and PPE required for the approved service.	Permanent insulation, waterproofing coating, soffit/fascia and related installation materials are supplied by the Customer or procured by the Service Provider only when included in the accepted Booking.
Foundation Crack Sealing — Interior Injection, Non-Structural Only	Service Provider supplies the injection/application tools, equipment and PPE required for the approved repair.	Service Provider supplies normal injection resin/ports/sealants and other repair consumables unless the accepted Booking expressly allocates a listed material differently.
Gutter cleaning: Single Storey Gutter Cleaning; Gutter Cleaning (Single Storey)	Service Provider supplies access equipment, cleaning tools and PPE required for the approved single-storey cleaning scope.	No permanent Customer material is ordinarily required.
Gutter Guard Installation	Service Provider supplies access equipment, installation tools and PPE.	Customer supplies the compatible gutter guards and customer-owned hardware unless the accepted Booking expressly includes Provider supply.
Roofing repair / replacement: Roof Leak Repair (L2 and L3); Roof Repair (shingles); Full Roof Replacement	Service Provider supplies professional roofing tools/equipment, lawful access equipment and required fall/safety PPE.	Shingles, underlayment, flashing, vents, sealants, decking and other roofing materials are supplied or procured exactly as stated in the accepted Booking/quote. The Provider must not substitute material responsibility after acceptance without an approved change.
Spray Foam Insulation	Service Provider supplies the specialized application equipment and required PPE for the approved spray-foam work.	Service Provider supplies the approved spray-foam product and normal application consumables unless the accepted Booking expressly states a different approved arrangement.
Hazard remediation: Lead paint Remediation; Mold Remediation; Asbestos Testing & Abatement	Service Provider supplies all legally required specialized tools/equipment, containment systems and PPE required for the approved regulated/remediation work.	Service Provider supplies the ordinary remediation/containment consumables and materials required for their approved method unless the accepted Booking expressly identifies another lawful arrangement.
Emergency Door & Lock Repair	Service Provider supplies ordinary/specialized door and lock repair tools and required PPE.	Replacement locks, cylinders, hardware or other parts are supplied by the Customer or by the Service Provider only as stated in the accepted Booking/quote.
Appliance Installation (Non-Gas)	Service Provider supplies ordinary installation tools/equipment and PPE appropriate to the approved non-gas installation.	Customer supplies the appliance and manufacturer-required installation kit, hoses, brackets, cords or other permanent components unless the accepted Booking expressly includes Provider supply.
Structural / deck construction: Structural Beam Installation; Deck Construction Installation	Service Provider supplies professional construction tools/equipment and required PPE for the approved scope.	Beams, posts, connectors, lumber, decking, guards, railings, concrete and other permanent structural materials are supplied/procured exactly as stated in the accepted Booking/quote.
Above-Ground Pool Installation	Service Provider supplies ordinary/specialized installation tools/equipment and PPE required for assembly and approved installation.	Customer supplies the above-ground pool and its frame, walls, liner, pump, filter, hoses and other manufacturer components unless the accepted Booking expressly includes a listed Provider-supplied item.

Current Live VISP Service(s)	Tools / Equipment / PPE	Materials / Customer-Supplied Items / Special Rule
Pet care: Dog Bathing Small/Medium; Dog Walking - 30 Minutes; Dog Walking - 60 Minutes; Litter Box & Pet Area Cleaning; Pet Feeding Visit; Pet Care - 4 Hours; Pet Sitting - 8 Hours	No specialized Provider tools are ordinarily required beyond normal personal items reasonably needed to safely perform the approved pet-care service.	Customer supplies pet-specific equipment and consumables, including appropriate leash/harness, food, water access, litter/liners, bathing products and other pet-specific items required by the approved Booking.
General Labour — Contractor Support	Customer/contractor may supply job-site tools and equipment. The posting must disclose any tools/equipment the Service Provider will be expected to use or bring. Service Provider is not required to bring undisclosed job-site tools. Provider supplies ordinary personal PPE unless the posting expressly states that the contractor will provide identified site-specific PPE.	Customer/contractor supplies job-site materials and permanent project materials unless the Booking expressly states otherwise. Any Customer-supplied tools, equipment or PPE must be suitable for the approved task; the Provider may refuse anything they are not legally permitted, competent or comfortable to use.

12. Pricing, Quotes and Customer-Set Opportunities

VISP services may use different approved pricing structures, including hourly rates, flat-rate quotes, per-unit pricing or other job-specific models.

For provider-priced services, the Service Provider may submit an offer only within the pricing parameters permitted by VISP for that service. Once accepted, the approved price is binding except where a permitted scope-change or job-mismatch process applies.

For designated customer-set services, including General Labour - Contractor Support, the Customer posts the hourly rate and expected duration within VISP's permitted limits. The Service Provider independently chooses whether to apply at the posted rate; there is no requirement to apply and no counteroffer unless VISP expressly enables one for that service.

13. Check-In, Check-Out and Hourly Time Records

Where VISP uses check-in/check-out or other timekeeping features, the Service Provider must record time honestly and accurately. Falsifying a check-in or check-out, coordinating false time records, remaining checked in when no service is being performed, backdating or altering hours, or otherwise manipulating a booking or time record is strictly prohibited.

For General Labour - Contractor Support, both parties may be required to confirm check-in before billable time begins. If the Customer ends the booking early, payment is based on the billable time the Service Provider was present and checked in, subject to the applicable booking rules and any dispute review. Where both parties confirm check-out, VISP may use the confirmed timestamps to calculate the final service amount.

TIME RECORD MANIPULATION - IMMEDIATE ACCOUNT ACTION

Any deliberate falsification, inflation, concealment, collusion or manipulation of check-in, check-out, hours worked, completion time or another billable-time record may result in immediate suspension and/or termination of the Service Provider account. VISP may hold a disputed payout while the matter is reviewed, to the extent permitted by law.

14. RIGHT TO REFUSE OR STOP UNSAFE, UNLAWFUL OR OUT-OF-SCOPE WORK

RIGHT TO STOP WORK

A Service Provider is never required to perform work that is unsafe, unlawful, materially different from the approved booking, outside the approved job scope, requires a licence or qualification the Service Provider does not possess, involves an undisclosed material hazard, or otherwise violates VISP rules.

The Service Provider may immediately decline or stop such work and may use VISP's SOS, cancellation, reporting or dispute tools where available. The Service Provider should identify the reason for stopping work as accurately as reasonably possible so VISP can review the platform record.

A Customer may not use the booking process to pressure a Service Provider into performing prohibited, regulated, unsafe or materially different work. VISP may review and take platform action when such conduct is reported.

15. SERVICE PROVIDER LIABILITY, DAMAGE AND INSURANCE

NO VISP JOB-SITE INSURANCE - RISK REMAINS WITH THE BOOKING PARTIES

VISP does not provide job-site insurance, service-provider liability insurance, Customer property insurance, accident insurance, workers' compensation coverage, tool/equipment insurance or any other insurance for an underlying booking. To the maximum extent permitted by law, the Service Provider assumes the risks arising from their own performance of the services. Nothing in this Agreement shifts to VISP any risk or obligation allocated to a Customer under the Customer's separate agreement with VISP or applicable law.

The Service Provider remains responsible for their own acts, omissions, negligence, misconduct, property damage, injury, claims, costs and service performance to the extent provided by applicable law.

Nothing in this Agreement transfers to VISP any risk or obligation that belongs to the Customer under the Customer's separate agreement with VISP or applicable law. This Agreement binds only VISP and the Service Provider and does not independently impose obligations on a Customer.

The Service Provider must maintain any insurance, WSIB coverage, registration, clearance or other protection legally required for the work and any additional coverage expressly required by the applicable VISP level or service. Customer responsibilities concerning insurance, permissions, property and site conditions are governed by the Customer's separate agreement with VISP and applicable law.

To the maximum extent permitted by law, VISP is not responsible for indirect, incidental, special, punitive or consequential losses arising from the acts or omissions of a Customer or Service Provider, except where such exclusion is prohibited by law.

16. PROHIBITED CONDUCT AND PLATFORM INTEGRITY

SERIOUS VIOLATIONS

VISP may immediately restrict, suspend or investigate accounts where there is credible evidence of fraud, violence, theft, serious safety misconduct, credential falsification, prohibited regulated work, payment manipulation, deliberate time-record manipulation, account sharing, substitute-provider/identity violations or other serious misuse of the platform.

The Service Provider must not:

- falsify identity, age, experience, credentials, licences, insurance, work history, photographs, receipts or other booking information;
- steal, intentionally damage property, threaten, harass, intimidate or unlawfully discriminate against another person;
- knowingly perform prohibited or regulated work without the legally required authorization;
- falsify check-in, check-out, hours worked, completion status or other time records;
- misrepresent the completion, condition, scope or quality of a booking;
- manipulate ratings or reviews, create false accounts, or engage in fraud or collusion;
- circumvent VISP's payment system in a manner prohibited by the applicable platform rules;
- misuse Customer personal information or use booking information for an unauthorized purpose; or
- engage in illegal, dangerous, abusive or fraudulent conduct through VISP.
- permit another person to use the Service Provider account, impersonate the account holder, or perform all or part of a booking under the account unless VISP has expressly approved that person for the booking through an authorized platform feature;

17. PERSONAL PERFORMANCE AND ACCOUNT IDENTITY - NO SUBSTITUTE PROVIDERS

NO SUBSTITUTE PROVIDERS - IMMEDIATE SUSPENSION

Unless VISP has expressly approved a separate team/business-provider feature for the booking in advance, the person who arrives and performs the booking must be the same verified individual whose VISP account/profile was selected by the Customer. Sending a friend, relative, employee, subcontractor, substitute or other person to "cover" a booking, or allowing another person to perform under the account, will result in immediate suspension of the Service Provider account pending review and may result in permanent termination. Customer consent does not override this rule.

Each Service Provider account is personal to the verified account holder unless VISP expressly designates the account as an approved business/team account with separately verified individuals. Account credentials must not be shared or transferred.

If more than one Service Provider is required for a booking, each person who performs work must have their own required VISP approval and must be separately identified or accepted through the platform where VISP requires it. An unapproved substitute may not perform any portion of the booking under another person's account.

VISP may hold any disputed payout associated with an identity/substitution violation while the matter is reviewed, to the extent permitted by law.

18. Account Restrictions, Suspension and Termination

VISP may restrict access to particular services, suspend an account, remove credentials or classifications, hold disputed payouts where legally permitted, or terminate platform access for material breach of this Agreement, fraud, serious safety concerns, credential problems, repeated significant scope violations, unlawful conduct, payment abuse, deliberate time manipulation, account sharing, unauthorized substitute-provider conduct, serious misconduct or other legitimate platform-integrity reasons. Where Section 17 requires immediate suspension for an identity/substitution violation, VISP will suspend the account pending review and may permanently terminate access after review.

The Service Provider may stop using VISP and request account closure, subject to completion of outstanding bookings, disputes, payment obligations, records VISP is legally required to retain, and any surviving provisions of this Agreement.

19. No Guaranteed Access to Services, Classifications or Customers

A VISP level, classification, credential review, account status or prior access to a service does not guarantee continued access to that service or create a right to receive any particular booking. VISP may apply job-specific eligibility requirements, credential requirements, service availability rules, geographic restrictions and platform-integrity controls.

The Service Provider must select or activate only the individual services they are willing and able to perform and must satisfy the applicable access requirements for those services.

20. Customer Disputes, Refunds, Chargebacks and VISP Review

Where a Customer or Service Provider raises a booking dispute, safety complaint, scope mismatch, payment issue or other platform concern, VISP may review information available through the platform, including the approved scope, messages, photographs, timestamps, check-in/check-out records, receipts, Customer answers, provider submissions and other relevant evidence.

VISP may make platform and payment-administration decisions reasonably necessary to administer the transaction, including releasing, holding, adjusting or refunding amounts where permitted by the applicable payment rules and law. VISP's platform decision does not prevent either party from exercising legal rights they may have outside the platform.

The Service Provider agrees to cooperate reasonably with legitimate platform reviews and to provide accurate information when requested.

21. Governing Law and Jurisdiction

This Agreement is governed by the laws of the Province of Ontario and the federal laws of Canada applicable in Ontario, without regard to conflict-of-laws principles, except where applicable law requires otherwise.

Subject to any dispute-resolution procedure VISP lawfully adopts and any rights that cannot be waived, the parties attorn to the courts of Ontario for disputes concerning this Agreement.

22. Privacy, Customer Information and Confidentiality

The Service Provider may receive Customer information only for the purpose of evaluating, communicating about and performing approved bookings. The Service Provider must protect Customer personal information and must not sell, publish, disclose or use it for unrelated purposes.

The Service Provider must comply with VISP's applicable privacy rules and any lawful confidentiality obligations associated with a booking. These obligations survive termination of the Service Provider account where appropriate.

23. Platform Access and Intellectual Property

VISP grants the Service Provider a limited, revocable, non-exclusive, non-transferable right to use the platform for legitimate marketplace participation while the account remains in good standing. VISP and its licensors retain their rights in the VISP software, branding, content, workflows and platform materials.

The Service Provider must not misuse, reverse engineer, interfere with, scrape, attack, or attempt unauthorized access to VISP systems except to the extent such restriction is prohibited by applicable law.

24. Electronic Records, Notices and Changes to Platform Terms

The Service Provider agrees that electronic acceptance, platform records, notices, messages and confirmations may be used to document bookings and contractual acceptance to the extent permitted by law.

VISP may update this Agreement or incorporated Service Rules from time to time. Where a change is material, VISP will provide notice through the platform, email or another reasonable electronic method and may require renewed acceptance before continued provider use. Changes will not retroactively alter a completed booking unless required by law or agreed by the affected parties.

25. General Terms

If any provision of this Agreement is found unenforceable, the remaining provisions continue in effect to the extent permitted by law. A failure by VISP to enforce a provision on one occasion does not waive future enforcement. Headings are for convenience only.

The Service Provider may not transfer or assign their VISP account or this Agreement without VISP's written consent. VISP may assign this Agreement in connection with a corporate reorganization, sale, merger, financing or transfer of the VISP business, subject to applicable law.

This Agreement, together with incorporated Service Rules and the approved terms of individual bookings, constitutes the agreement governing the Service Provider's use of VISP in that capacity and replaces prior inconsistent platform-provider understandings on the same subject.

Sections that by their nature should survive account closure or termination - including payment obligations, taxes, liability, confidentiality, dispute provisions, intellectual property protections and accrued rights - survive to the extent applicable.

Service Provider Acceptance

By clicking "I Agree," "Accept," "Activate Provider Account," or another electronic acceptance control presented with this Agreement, the Service Provider confirms that they:

- have read and understood this Agreement;
 - understand that VISP is an intermediary marketplace and that the Service Provider is not a VISP employee;
 - understand that participation in individual bookings is voluntary;
 - agree to perform only approved scopes and to refuse prohibited, unsafe or unauthorized work;
 - authorize the applicable VISP commission and payment-processing arrangements described in Section 9; and
 - agree to comply with applicable VISP Service Rules and booking-specific requirements.
-
- understand that check-in, check-out and hourly time records must be truthful and that deliberate time manipulation may result in immediate suspension and/or termination; and
 - understand that, unless VISP expressly approves an authorized team/business-provider arrangement, only the verified account holder may personally perform bookings accepted under that account and any substitute-provider violation results in immediate suspension pending review.
 - authorize VISP to retain the Agreement version, acceptance timestamp, account identifier and related electronic acceptance records.
